

Header and Footer

TrueBook tries to fulfil all the specific requirement of the organization as much as possible, instead of requesting them to adjust them with the system.

In the system report header and footer can be set/define for each project and organization. System will auto choose header and footer from folder RptHeaderFooter (i.e. C:\TrueBook\RptHeaderFooter).

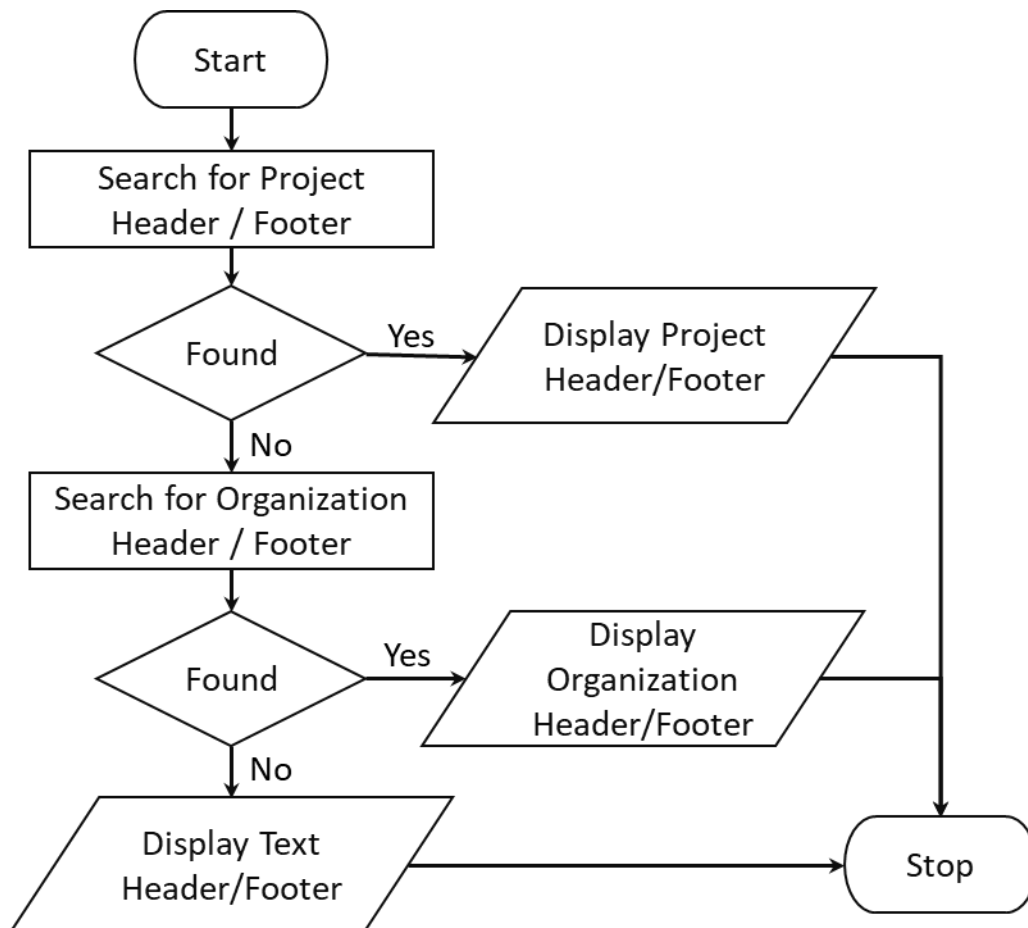

Header/Footer should be named as follow:

Project	: <Project DisplayID>Header.jpg	for Header
	<Project DisplayID>Header.jpg	for Footer
Organization	: <Organization DisplayID>Header.jpg	for Header
	<Organization DisplayID>Header.jpg	for Footer

For example: for project Display ID PVMG, for header PVMGHeader.jpg and for footer PVMGFooter.jpg

The header/Footer picture size should be **688 by 97 pixel**. If picture size is bigger, then it won't display full picture.

System user following process to choose Header / Footer

Note:

1. CE (Clearing Entry) and RE (Revaluation Entry) voucher type cannot be blocked.
2. For creating header or footer you can also use [Paint](#) program.
